

According to Charlotte Pipe Technical & Installation Manual (Updated December 1, 2015) Never use PVC or CPVC for Gas Conveyance see following excerpt or visit link.

http://www.charlottepipe.com/Documents/PL_Tech_Man/Charlotte_Plastics_Tech_Manual.pdf

 **WARNING**

To reduce the risk of death or serious injury from an explosion, collapse or projectile hazard and to reduce the risk of property damage from a system failure:

- Always follow the warnings and procedures provided in this manual.
- Only use PVC/ABS/CPVC pipe and fitting for the conveyance of fluids as defined within the applicable ASTM standards.
- **Never use PVC/ABS/CPVC pipe and fittings for the conveyance of gasses.**
- Never use PVC/ABS/CPVC pipe or fittings in structural application or in any load-bearing applications.
- Never strike the pipe or fittings or drive them into the ground or into any other hard substance.
