

Z-DENS

Polypropylene Venting System, designed for quick and safe installation. Self-sealing factory installed gaskets dramatically reduce installation time.

ADVANTAGE Z-DENS!
NO MESSY GLUE!
BETTER BY DESIGN!
POLYPROPYLENE VENT SYSTEM
FOR CONDENSING APPLIANCES

Z-Flex[®] Triple Lock[®] Smoothcore Chimney Liner System

Patented airtight Triple Lock[®] construction and exclusive Z-LOK Tee.

Z-VENT[®] Special Gas Vent

Commercial Chimney System designed for use with Cat. II, III, IV heating equipment; boilers, high efficiency furnaces, pool heaters, unit heaters & water heaters. The double fail safe self sealing Special Gas Vent System dramatically reduces installed vent system cost.

NovaVent[®] Environmentally safe alternative to PVC venting. Designed for quick installation. When compared to plastic and other resin based materials used for venting systems, NovaVent[®] displays a considerably lower thermal expansion and contraction, making it much more resistant to stress corrosion cracking. Tested and listed to UL1738/S636 Category II, III, IV.

Direct Vent Systems A completely sealed system that does not compromise indoor air quality. Designed for use when converting existing wood-burning fireplaces into gas fireplace inserts.

Triple Lock[®] & Fabriflex[®] Duct industry's strongest flexible air duct and connectors. Insulated, acoustical, mechanical lock. No adhesives. UL / ULC Listed for low, medium and high pressure applications.

Platinum Flow® Innovative Self-Sealing Round Duct System incorporates both factory installed EPDM double safe gaskets and calibrated sizing. Complete system available in single wall, double wall insulated, as well as custom design capabilities. Designed to exceed SMACNA's duct construction standards. Leakage Class 3
